

Dear President Trump,

All of us signing this letter have worked as undocumented workers at one of your golf clubs; some for more than ten years.

We are writing to respectfully request a meeting with you. We are modest people who represent the dreams of the 11 million undocumented men, women and children who live and work in this country. We love America and want to talk to you about helping to give us a chance to become legal.

We know you and your family; we worked very hard to make your clubs a success and to keep your members and visitors happy. You know many of us and will recall how hard we worked for you, your family and your golf clubs. We all took great pride in our hard work and years of service to make your clubs successful.

You know we are hard workers and that we are not criminals or seeking a free ride in America. We all pay our taxes, love our faith and our family, and simply want to find a place for ourselves to make America even better.

We want to wake up every day next to our spouse, give our children kisses before they go off to school, and as mothers and fathers, we want to work hard so that our children will follow our example so that their future is part of the destiny of the United States of America. However, in order for this to happen in harmony, we need the opportunity to legalize our immigration status.

We believe you have a heart and will do the right thing to find a home for us here in America so that we can step out of the shadows and not deport us and our friends and family.

Thank you for considering our request.

Humbly Yours,

Victoria
